

# Hanna Missions

SEEK • DO • TEACH • EZRA 7:10

The eventful November is a month we are excited to share!

Meet  
**ramon  
simonzi!**

One of the earliest con-

verts connected us with her best friend who became a Christian last year and this time around, has studied herself with this young man who became a Christian!

Brother Simonz is the son of a denominational preacher so this decision was very sobering for him. He had to count the cost and determined he was prepared to receive whatever consequences would result. Fortunately, his father did not respond in a negative way. With this misguided perception that “one church is as good as another,” this father has welcomed the eternally beneficial decision. Our goal now is to nourish this young babe in Christ to understand just how important it is for him to love souls and teach his family the truth of the Gospel.

Many years ago as a young teenager,

**TERRY** became a Christian. Life happened to him and with no Christian parents in the home, and the one influence —an aunt who was a Christian— passing away, Terry fell away from Christ. After a long turn of events that landed him in serious is-

sues, this now young man 21 years old, returned to God and has rededicated his life being extremely faithful to the work of the Lord. He has decided to work with the Eight Mile Rock church and participated in leading worship for the first time in our services just last week. He has become an active part of the Men’s group and is studying the book “Headed to the Office” by Glenn Colley which is designed to groom young men for eldership! Praise God! We are so thankful to now have six men in the church! We are growing. Slowly but steadily.

# What's Happening in the Eight Mile Rock Church?

## RELIEF EFFORTS

We have completed 250 visits and prayers with families and have been await-

ing the clearing of a trailer so that we can continue the work. In the meantime, we have been taking rolls of roofing materials to homes and have seen such grateful hearts. There have even been a few doors purchased and delivered. To God Be the Glory for all the wonderful works He is doing, by the hands of YOU... His Saints... and us, the local farmers.

Please keep the upcoming water bottle distribution in prayer. We will give 1,400 five gallon jugs to families free of charge with our church logo and number on waterproof labels. We hope to get some calls from this!

## FAMILY NEWS

The girls are excited about the Holidays. They wish for snow now but we can't even get below 70! We spent two weeks moving within our apartment complex to a slightly larger unit. Shameika was extremely busy considering, but she is thankful for the extra space!

## PRAYER REQUESTS

This section of the report is so important to us. It is where we beg of you, prayers and encouragement.

Please pray that:

- The new converts and restored brethren will grow and remain faithful despite inevitable challenges.
- We will not grow weary (Gal. 6:9) and be a good example to the church.
- The community efforts being made to help those affected by the hurricane result in Bible studies and open doors.

Thank you for reading this email. Thank you!
